

Part 9

**Rodgers Family Tree
From
Thomas Rodgers 1840
and**

**Rush Family Tree
From
Richard Rush 1630**

Much more information is actually held in the family tree database on Ancestry.com than is displayed in this family tree listing, such as full dates of birth and locations, dates and locations of marriage, and dates and locations of death, plus various other notes of interest and photographs.

Since the 1998 and 2017 Reunions, all the photos and copies of documents gathered have been placed in "family folders" for future reference and safekeeping. Any member of the family wishing to have a copy the family folders (or submit photos/stories/documents) should contact Steve Rush or Dale Hartle.

It is hoped to add to and update these family records with as many photographs as possible during the next few years, and they will be available at the next Reunion for viewing.

To find a name, just use the search feature.

While every effort has been made to ensure the accuracy and completeness of the Family Trees listings, it has been impossible to verify some details. We apologise if any information is incorrect or missing. No doubt there have been plenty of hatches, matches and dispatches since this list was compiled. If you find any errors or omissions, please contact Steve or Dale with details of corrections.
